

English as an Additional Language or Dialect professional learning (recorded on Adobe Connect)

The following professional learning courses target teachers of students learning English as an additional language or dialect (EAL/D). The non-registered courses are recorded on an Adobe Connect platform and can be accessed at the links provided.

Successful teacher professional learning is driven by identifying a need, setting goals and targets, effective planning, providing opportunity for self-reflection and feedback from others. The courses below may be used as a stimulus for various aspects of professional learning. Teachers will need opportunities to practise new knowledge and skills, reflect on learning and refine practices.

A session of these courses can be scheduled on MYPL using your school as the venue.
