Step-by-step guide for creating your word cloud

Create a word cloud in Wordle

1. Go to the [Wordle](http://www.wordle.net) website (www.wordle.net).
2. Read the introduction and then click **Create your own**.
3. Type or paste your chosen words into the text box. Type the tilde character (~) between words you want to appear together. For example, big~eyes.
Words that appear more often will be larger in the word cloud, so
 - a. type words you think are more important more than once
 - b. type your most important word most often.
4. Click **Go** (below the text box) to create your Wordle
5. Use the **Randomise** button and the menu options above the Wordle to change the appearance of your word cloud.
6. Save and print your completed Wordle.
