The **ESL Steps: ESL Curriculum Framework K–6** is a planning and programming tool for teachers of students learning English as a second language (ESL) in New South Wales government schools. It demonstrates how ESL students with varying levels of English language proficiency can be supported to achieve KLA outcomes at their appropriate stage of learning. The framework is designed for use across all stages and within any KLA. It is organised in a series of ‘steps’ which show the progressive development of English language skills, linked to both the **ESL Scales** and K–6 syllabus stages.

### STRUCTURE

#### Teaching guides

The **ESL Steps: ESL Curriculum Framework K–6** is presented in four booklets or teaching guides. A teaching guide is provided for each K–6 stage (Early Stage 1, Stage 1, Stage 2, Stage 3). Each guide is organised into seven sections based on **Language focus areas**. Each section is graded by **ESL band** and is presented in **language modes** (Oral, Reading and Writing) to define each **ESL step**.

#### Language focus area

The language focus areas of **describing**, **recounting**, **responding**, **instructing**, **explaining**, **persuading**, and **negotiating** relate to the types of texts identified in the **English K–6 Syllabus**.

#### ESL bands

ESL bands (A1 – beginning, A2 – elementary, B – transitional and C – extended) are clusters of **ESL Scales** levels providing broad descriptions of ESL learner English language proficiency. They can be used to determine appropriate groupings of students for ESL instructional purposes within a class. The relationship between **ESL Scales** levels and **ESL Steps: ESL Curriculum Framework K–6** bands is shown in the appendices.

### Language modes

Each ESL Step is presented in the language modes of **oral**, **reading** and **writing**.

### ESL step

Each ESL step is a broad outcome covering the **ESL Scales** levels included in the band. It describes what can be expected of a typical ESL learner:

- within a language focus area (describing, recounting, responding, instructing, explaining, persuading, and negotiating)
- at an ESL band of English language proficiency (A1, A2, B and C)
- in a given language mode (oral, reading and writing).

Each ESL step is supported by:

- **Suggested language elements**
  The suggested language elements act as indicators for the broad outcome of the ESL step statement. The language elements presented are selections only and may be added to as required.

- **Sample strategies and activities**
  The sample strategies and activities were developed by a team of experienced ESL teachers. They do not constitute a program or a teaching sequence, but represent examples of the sorts of activities that teachers use to optimise learning for ESL students.

In effective ESL teaching, support is gradually reduced as learners gain proficiency in the targeted language. In **ESL Steps: ESL Curriculum Framework K–6**, activities are grouped into **controlled support**, **guided support** and **independent support** levels to help teachers to plan sequences that reflect this progression.

**Note:** The oral skill areas of listening and talking are described separately in each ESL step statement and the suggested language elements. The sample strategies and activities encompass both skills in most cases.

Using the ‘ESL Steps: ESL Curriculum Framework K–6’ teaching guides in programming

The ESL Steps: ESL Curriculum Framework K–6 teaching guides are designed to assist teachers in their planning and programming for ESL learning. The diagram on page iv outlines how the ESL Steps: ESL Curriculum Framework K–6 teaching guides can be used to assist with programming.

Goal

The goal of ESL teaching and learning programs is that ESL students are able to achieve the KLA outcomes for the appropriate stage. The ESL Steps: ESL Curriculum Framework K–6 offers assistance for teachers in planning and programming to bridge the gap between the English language proficiency of their ESL students and the language demands of the activities in KLA units and topics.

1. Needs analysis

Teachers should use the ESL Scales to gauge the level of English language proficiency of ESL learners. The ESL Scales level statements can be used to make an initial judgement. This judgement can be confirmed or adjusted as students’ engagement in teaching and learning activities provides clarification of what ESL students can and can’t do. The four ESL bands used in the ESL Steps: ESL Curriculum Framework K–6 group several ESL Scales levels together and create a practical basis for grouping students for ESL instructional purposes. Teachers determine the relevant ESL band for the ESL learner group.

2. Language demands

When planning a KLA unit or topic, teachers anticipate the oral and written texts with which students may be required to engage. These may be informed by the text types identified in the English K–6 Syllabus. Using the Language focus across the curriculum in the appendices as a guide, teachers can determine the related language focus areas. Teachers can also use the ESL Scales outcomes and pointers to identify the language demands of the activities and assessments in a KLA unit or topic.

3. ESL steps

Teachers locate relevant ESL steps. Each double page display in the teaching guides provides information about talking, listening, reading and writing for one language focus area within an ESL band. Teachers locate the relevant pages by combining the appropriate language focus area and ESL band.

4. Language elements

Teachers select items from suggested language elements for each language mode (oral, reading and writing). These are suggestions only and alternatives may be selected from related ESL Scales pointers. The items selected become the ESL objectives of the teaching unit against which ESL learning is assessed.

5. Strategies and activities

Teachers select ESL teaching and learning strategies and activities to support the development of English language skills needed for KLA learning. Alternatively, teachers may design strategies and activities using the samples as a guide. Teachers sequence activities using the framework of Controlled support, Guided support and Independent support to provide graduated support for learning the target language.

Controlled support is provided through specifically designed activities that give students models of the target language. Controlled support is usually teacher led and involves students participating in fully scaffolded activities that draw their attention to specific aspects of the language.

Guided support is provided through activities designed to ensure students have multiple exposures to the target language. Guided support provides a partial scaffold for students as they apply and practise the target language.

Independent support is provided through activities designed to allow independent use of the target language. Independent support provides minimal scaffolding to students as they demonstrate their developing mastery of the target language in a range of contexts.

The sequence of learning activities is based on the learning needs of students. In most cases, students require an alternation between controlled and guided support rather than support which follows the controlled, guided, independent support framework in a linear fashion.

Teachers identify activities at all support levels that provide opportunities for assessment for ESL learning.

6. Teaching and learning – implementing the ESL program

Teachers implement the programmed teaching sequences. They scaffold learning by providing point-of-need assistance adjusting the program where appropriate to ensure that individual students’ immediate needs are met.

Teachers conduct planned ongoing assessments and record relevant observations as required. Teachers assess ESL learning against the ESL objectives that were established using suggested language elements.

7. Evaluating

Teachers use students’ assessment data, cumulative and final, to provide evidence of the impact and suitability of the program. They judge the effectiveness of the ESL program in enabling students to move towards achievement of KLA assessment and outcomes.
Using the ‘ESL Steps: ESL Curriculum Framework K–6’ teaching guides in programming

**Goal**
ESL students able to achieve KLA outcomes for appropriate stages.

1. **Needs analysis**
Identify ESL students’ needs and decide ESL Scales level and ESL band.

2. **Language demands**
Identify language demands of the KLA unit or topic and decide on a Language focus area.

3. **ESL steps**
Locate relevant ESL steps. This is informed by Stage, Language focus and ESL band.

4. **Language elements**
Select items from Suggested language elements which address the language demands of the unit. These become the unit’s ESL objectives against which ESL learning is assessed.

5. **Strategies and activities**
Select or design ESL activities to support curriculum teaching and learning. Sample strategies and activities provide a useful bank of ideas. Sequence activities to provide graduated support for learning target language. Identify activities that provide opportunities to assess for ESL learning.

6. **Teaching and learning**
Scaffold learning by providing assistance for use of target language at the point-of-need. Assess ESL learning outcomes of students in the context of the KLA unit or topic.

7. **Evaluation**
Evaluate the effectiveness of the ESL program in facilitating students’ achievement of KLA outcomes.

2. Demonstrating how to rewrite an information report for a younger class and discussing modifications, e.g. less technical language.
3. Demonstrating how to annotate diagrams after reading factual information.

**GUIDED SUPPORT** – Students practise target language by:

1. In pairs, after an excursion, writing descriptions of the place visited.
2. Expanding sentences by including dependent clauses, e.g. the nasty boy who waited by the gate to steal lunch money…
3. Changing action verbs into abstract nouns, e.g. ‘the seeds germinated…’ becomes ‘the germination of seeds…’

**INDEPENDENT SUPPORT** – Students use target language by:

1. In small groups or pairs, writing an information report for a younger class including appropriate visual material.

- Presents sustained and cohesive talks on familiar topics, handling questions appropriately.

---

**Suggested language elements**

**LISTENING**

2. Organises information gained from spoken language, choosing a suitable organising format. 7.1.2
3. Assesses information gained from spoken descriptive texts for relevance, accuracy and completeness. 7.4.1
4. Identifies the effect of devices such as rhythm, metaphor and repetition in descriptive texts. 8.2.1
5. Defines the nature and purpose of the information being sought before listening or viewing. 8.1.4

**TALKING**

2. Presents an unrehearsed talk on a familiar topic. 7.1.4
3. Contributes to discussion about new topics. 7.1.5

**Sample strategies and activities**

**CONTROLLED SUPPORT – Teacher provides target language by:**
1. Constructing a chart to which students can refer when preparing an information report.
2. Demonstrating active listening strategies that can be employed when listening to a talk, e.g. note-taking, mind mapping, questioning.
3. Demonstrating how to organise information graphically to aid summarising skills.

**GUIDED SUPPORT – Students practise target language by:**
1. In groups, ‘floor storming’ information, then analysing and categorising it to determine what else needs to be researched.
2. In groups, completing an oral cloze based on a literary or factual description, focusing on nouns and noun groups. Students discuss possible inclusions and the information in the text which aided them in coming to consensus.

**RECOMMEND**

**ESL STEP**

Organises main and supporting ideas in texts using a range of reading strategies and sources.

**Sample strategies and activities**

1. Modelling how to create structured overviews, relating ideas within a topic, e.g. a character description – appearance, actions, motivations.

2. Identifying, during a shared reading, other text types located within information reports, e.g. short explanation within a description of the life cycle of an animal.

**GUIDED SUPPORT** – Students practise target language by:

**GUIDED SUPPORT** – Students practise target language by:

1. In groups, writing details to support given descriptive topic sentences from literary and factual texts.

2. Following a model to change action verbs into abstract nouns, placing them in theme position, e.g. ‘the volcano erupted’ becomes ‘the eruption of the volcano’.

**Aspects of numeracy**

Time, sequencing, location, position, distance, temperature, money.

**Sample strategies and activities**

**CONTROLLED SUPPORT – Teacher provides target language by:**

1. Modelling questions that promote higher order thinking skills, e.g. The answer is wicked. What is the question?
2. Presenting an oral recount or a narrative and discussing how connectives help to organise ideas in a logical sequence, e.g. in the beginning, secondly, meanwhile, finally.
3. Identifying multiple word tenses in an oral narrative or recount and discussing the time relationships, e.g. after he had eaten his lunch, the giant went to sleep; while 6M is watching the video, our class will use the computer equipment.

**GUIDED SUPPORT – Students practise target language by:**

1. In pairs, listening to a narrative on tape and identifying the verbs that are used effectively to create atmosphere and action.
2. In groups, preparing role-plays which compare the effects of using different levels of modality, e.g. a powerful character in a narrative, commanding support, and then meekly requesting it, from followers.
3. In groups, discussing the effect of different saying verbs after listening to taped narratives or recounts. Students identify the information given by these verbs, e.g. I know the character didn’t want to do it, because the author used the verb ‘grumbled’.
4. In groups, identifying idioms used in narratives or recounts, brainstorming meanings, and discussing how the meaning and use of idioms vary between cultural and social groups, as well as with the relationship between the participants.

**INDEPENDENT SUPPORT – Students use target language by:**

1. Re-telling a rehearsed narrative to a group or students in another class using appropriate voice and gestures.
2. Taking part in ‘Celebrity Heads’ based on characters from a narrative or recount.
3. Participating in improvising a short drama based on part of a familiar narrative or recount.

**CONTROLLED SUPPORT – Teacher provides target language by:**
1. Presenting biographical and historical recounts or narratives and identifying examples of language indicating a point of view.
2. Leading shared reading of a biography and discussing purpose and possible audiences.

**GUIDED SUPPORT – Students practise target language by:**
1. In groups, comparing biographies or historical recounts by different authors on the same topic, listing similarities and differences, e.g. audience, stereotyping and bias.
2. In pairs, listing emotive language and exaggeration in a familiar narrative or recount and discussing effects, e.g. ‘bravely fought back tears’ – to elicit sympathy.
3. In groups, developing a timeline for a narrative or recount and discussing the effects of, and reasons for, the author’s choices, e.g. flashback to explain a character’s reactions.

**INDEPENDENT SUPPORT – Students use target language by:**
1. Identifying differences in elements of the visual text such as cover, illustrations and title page in different versions of a text, and discussing possible reasons for these differences, e.g. productions costs, update presentation, release of a related movie.

1. Demonstrating how to create compound-complex sentences by combining independent and dependent clauses, then discussing effects of the changes.
2. Thinking aloud to predict the outcomes for given characters in an incomplete narrative or recount, and to model a way of writing complications and an ending.

**GUIDED SUPPORT – Students practise target language by:**
1. In groups, constructing a narrative that deviates from a simple narrative structure, e.g. multiple orientations, complications, flashbacks, flash forwards.
2. Highlighting different kinds of verbs, e.g. red-action, blue-thinking, green-saying, yellow-relating, then discussing frequently used verbs types, their purpose and effects.

**INDEPENDENT SUPPORT – Students use target language by:**
1. Constructing an innovation of a short narrative, e.g. writing a fairytale in a modern setting; changing gender or age or personality of a character.
2. Completing sentence beginnings about a famous person who has been studied in class, then combining sentences into a factual recount using relative and dependent clauses.

• Uses single words, formulaic phrases or incomplete sentences to respond to literary texts.

Sample strategies and activities

CONTROLLED SUPPORT – Teacher provides target language by:

2. Modelling language structure for a personal response, e.g. ‘I liked the witch when she…’
3. Developing the concept of ‘favourite’ by asking students about things they like and creating a class graph representing student responses to questions, e.g. about television shows, pets, fruit, food.
4. Demonstrating non-verbal ways to show agreement or disagreement to statements, e.g. the witch is beautiful – shake head or signal thumbs down.
5. Modelling how to construct a story map.

GUIDED SUPPORT – Students practise target language by:

### Sample strategies and activities

**CONTROLLED SUPPORT** – Teacher provides target language by:

1. Demonstrating the effects of rewriting a procedure and changing the word or phrase in theme position.
2. Introducing the use of relative clauses to add detail to a procedure, e.g. Add the fruit, which has been soaking for two hours, into the mixture.

**GUIDED SUPPORT** – Students practise target language by:

1. In pairs, using visual texts from a range of sources to create illustrations that assist readers to achieve the goal of a procedure, e.g. photographs, drawings, clipart.
2. In groups, identifying relevant language in conditional procedures (ones where the reader must make choices), e.g. first aid procedures, instructions for computer programs.

**INDEPENDENT SUPPORT** – Students use target language by:

1. Writing, illustrating and editing a procedure using a computer on a topic of their choice.
2. Writing procedures for two different audiences on the same topic, varying the language and visuals appropriately, e.g. making scones for adults, for kindergarten students.

### Sample strategies and activities

**CONTROLLED SUPPORT** – Teacher provides target language by:

1. Drawing attention to the ways in which spoken instructions often address the audience specifically, e.g. Then 6F will swap places with 5R.
2. Focusing on ‘if… then’ structures in instructions, e.g. If you turn the handle too far then the timer will jam.
3. Demonstrating the use of adverbial clauses of reason, e.g. use a chalk mark on the material so that the stitching will be straight.

**GUIDED SUPPORT** – Students practise target language by:

1. In pairs, creating instructions that contain complex sentences, e.g. if... then structure (conditional) and so that ___ (causal).
2. In groups, completing an oral macrocloze by supplying the missing reasons, e.g. Leave the cake to cool [so that you can remove it from the cake tin more easily].
3. In groups, role-playing the same set of instructions with varying degrees of modality and discussing the effect, e.g. you could adjust the screen by ___; you should adjust the screen by ____; you must adjust the screen by ____.

**INDEPENDENT SUPPORT** – Students use target language by:

1. Presenting an oral procedure to peers, e.g. origami, using diagrams and visual texts to support instructions.
2. After listening to an oral procedure, marking on a checklist the strategies used to modify the intensity of spoken instructions and discussing the effect on the audience, e.g. of word choice, tone of voice, use of eye contact.

### Sample strategies and activities

**CONTROLLED SUPPORT – Teacher provides target language by:**

1. Presenting a range of the language structures used to make suggestions, politely reject suggestions, and justify ideas, modelling usage through a role-play.
2. Using a ‘Fish Bowl’ activity to focus attention on the language that a small group uses to interact and negotiate differing points of view.

**GUIDED SUPPORT – Students practise target language by:**

1. In groups, engaging in a problem-solving task using negotiating language in agreeing on a solution to be presented.
2. In pairs, clarifying and confirming partner’s oral instructions or directions for completing a complex task.

**INDEPENDENT SUPPORT – Students use target language by:**

1. Contributing ideas to discussions about a moral dilemma and clarifying own and others’ positions.
2. Reporting on how a group interacted and negotiated differing opinions.
# ESL STEP

**NEGOTIATING**

- Negotiating underpins all KLA themes and content.
- All home and school routines using the language of politeness appropriate to audience and purpose, e.g. please, thank you, greetings, requests.

**Sample strategies and activities**

**CONTROLLED SUPPORT** – Teacher provides target language by:

1. Using mass media such as radio or television advertisements, to highlight devices used to negotiate meaning and position, e.g. emotive words, accurate information, relevant facts, modality, etc.
2. Highlighting unfamiliar allusions and idiomatic uses of language in oral texts and demonstrating ways of seeking clarification.

**GUIDED SUPPORT** – Students practise target language by:

1. In groups, identifying how meanings are implied in oral texts, using guide questions such as “What is the speaker trying to do?” “How do you know?” i.e. “What languages choices give you a clue?”
2. In pairs, listening to a debate and noting how language positions the speaker and the audience.
3. In groups, after viewing a taped interview, identifying the kinds of questions asked and their purposes.

**INDEPENDENT SUPPORT** – Students use target language by:

1. Completing a matrix to identify the uses of negotiating language (agreeing, disagreeing, asserting, suggesting) in a short discussion or interview, e.g. from a current affairs program.
2. After listening to a guest speaker on a local issue, referring to own notes to identify the language reflecting the speaker’s stance on the issue, e.g. emotive words, modality, factual information, statements of belief etc.

Appendix IV
‘ESL Scales’ level statements
READING AND RESPONDING

BAND A1

Students at level one gain and share meaning from hearing and reading short, simple texts in structured reading activities, bringing their previous experience in reading to reading tasks in English. They handle books appropriately, conveying their awareness of some conventions of book and print organisation. They interact with texts, focusing on visual support to gain meaning.

BAND A2

Students at level two gain and share meaning from symbols, writing and from simple texts read aloud, showing understanding that print encodes meaning and that written texts have a structure. They recognise the basic features of print, show some understanding that print transmits consistent meanings through symbols and conventions and model their own ‘reading’ on the shared reading of others.

Students at level three read with understanding controlled familiar and unfamiliar texts containing predictable structures and familiar vocabulary. They display awareness that written English differs from spoken English and that different texts may be organised differently. They cue into basic text organisation and language features and make varying use of English vocabulary, structure and sound symbol cues to make sense of unfamiliar text.

BAND B

Students at level four read with understanding for a range of purposes. They identify main ideas and specific information in simple texts, relating their own culture, knowledge and experience to information in the text. They recognise key words connecting ideas and the organisation of information in texts, and coordinate a number of strategies to assist their reading.

Students at level five read with understanding a range of texts, including those remote from their personal experiences. They interpret mainly at a literal level and use the information for other purposes, displaying awareness of how information is organised and presented in English texts. They cue into key organisational and language features of texts and apply strategies to enhance their comprehension and learning.

Students at level six read with understanding a range of authentic texts for varying purposes. They make justifiable interpretations beyond a literal level, relating a text’s format, structure and choice of language to its purpose. They interpret complex language used for a range of purposes and select reading strategies suited to the text and the task.

Students at level seven evaluate given texts with reference to their validity and quality. They justify their own reading of a text in relation to the readings of others, considering how the reader interacts with the text to construct its meaning. They relate their own response to their analysis of language use and features, and use a repertoire of strategies to interpret texts and monitor their own reading.

BAND C

Students at beginning level one show interest in gaining and sharing meaning from simple visual and written texts in structured reading activities, showing knowledge that print and writing transmit and record messages and stories between people. They handle books appropriately, conveying their awareness of some conventions of book and print organisation. They interact with texts, focusing on visual support to gain meaning.

Students at beginning level two read with understanding short texts based on simple language structures, familiar vocabulary and familiar contexts, showing understanding of the differences between narrative and expository texts which relate to their own knowledge or experience. They use their knowledge of reading, their understanding of basic print conventions in English, and support from modelled language to help them read in English.

Students at beginning level three read with understanding well-known texts, drawing on their developing knowledge of English. They respond to simple texts read aloud, identifying texts written for different purposes and relating them to their own knowledge and interests. They use their knowledge of English sound/symbol relationships and basic punctuation to read familiar and some unfamiliar texts, and focus on the literal meaning of the text, applying their knowledge about reading in English to new texts.
