Visual Design

Anatomy of type
Typography is an essential part of communication and is everywhere in our lives. Typographers create new typefaces for commercial use by designers and individuals. They also revive old typefaces to make new families of font and new styles.

**Anatomy of type**

Lyon Text Family

**Lyon Text Regular**

**Lyon Text Regular Italic**

Lyon Text Regular No 2

**Lyon Text Regular Italic No 2**

Lyon Text Semibold

**Lyon Text Semibold Italic**

Lyon Text Bold

**Lyon Text Bold Italic**

Lyon Text Black

**Lyon Text Black Italic**

Since the invention of movable type in the 15th century, type foundries manufactured a variety of font styles for publications. When printed and online computer-based publications emerged, small and large type foundries began making and selling typefaces and designs.
